

Call of the Raven

Psychic Prompt Cards Symbol System Template

These cards were created to be a door opener between you and your higher/intuitive self and the world of Spirit. There are no pre-set meanings. The cards are purposely simple. They are not meant to do the work of an intuitive reading for you, nor are they meant to provide you with uniform messages for your query.

They act as an energetic placeholder, a “psychic link” facilitator, and a conversation initiator. As you use the cards, you will start to notice that certain life circumstances and energies tend to correlate to each card. You can allow the meanings to flow to you when you’re engaging in intuitive work, or you can work with Spirit to develop your own unique meanings. For each of the 81 cards below, set aside time in a quiet place to center, focus, and go within. Ask Spirit (God/Goddess/The Universe or whatever verbiage you prefer for the divine) to send you thoughts, feelings, or visual cues as to what that specific card might mean in a reading for someone.

For example, if the card is “LOVE” you might feel that this card could be referring to many different types of love including self-love, romantic love, love of work, love of family, love of country, etc. YOU decide. To get the conversation between you and Spirit started, below is a list of each of the 81 cards and a place to write down what they mean to YOU.

Try not to get too specific with your meanings. Remember that the details will show themselves for each person with whom you use these cards - if you trust your intuition to lead the way.
